

Night Owl's BJ-881-624A: 8 Channel Complete Security Solution with 1TB Hard Drive, HDMI Output, 960H Recording, 8 Hi-Resolution Cameras (bonus 2 cameras with audio) and Free Night Owl Pro App

Unlike other security systems, the Night Owl BJ-881 Series Security Solution allows you to maintain your mobile lifestyle while enjoying peace of mind knowing that your home, family, business and/or employees are safe and secure.

Night Owl's BJ-881-624A is an advanced 8 channel / 8 hi-resolution (600 TVL) camera Security System with pre-installed 1TB hard drive that is fully controllable on your Smartphone, Tablet, PC® or MAC®. The DVR easily connects to any TV or Monitor with the included HDMI cable. With motion activated email alerts and easy Smartphone access, this Night Owl system gives you true 24/7 video security day or night no matter where you are located in the world.

Key Features

- 8 Channel Smart DVR with pre-installed 1TB hard drive
- HDMI Output for easy connection to any TV or Monitor
- 960 H Recording Capabilities
- 8 x Indoor/Outdoor 600 TVL cameras with 50FT night vision
- Bonus 2 Audio enabled cameras included
- No monthly fees
- 24/7 Technical phone support (English & Spanish)
- 24/7 Web support at www.NightOwlSP.com

Our Sophisticated Night Owl Pro App allows you to:

- Eliminate the need for a computer
- View, configure, and playback recorded Audio and Video files on your Smartphone or tablet
- Receive motion activated push notifications directly to your Smartphone or tablet
- Configure your DVR from your Smartphone
- Multi-gesture technology to switch channel views

960H Recording:

5 times larger than CIF and over 33% larger than D1, 960H is the perfect resolution to fit your widescreen TV or monitor. 960H allows you to record at a resolution of 960 by 480 horizontal TV lines. So images are crisper and clearer than both CIF and D1. This new standard was designed to fit the most recent monitors and TV's. With 960H recording and HDMI output, you will clearly see the difference.

Remote Connectivity

Viewable anywhere in the World on your Smartphone or Tablet

Our Free Apple® and Android® based App 'Night Owl Pro' gives you the ability to be constantly connected to your system. Unlike most security systems in the marketplace, this Night Owl DVR does not require the user to connect to a PC® to replay video files. The free app allows you not only view all 8 channels at once but also playback audio and video files directly on your smartphone. With push notifications you will be instantly alerted of an intrusion and even playback the file in the palm of your hand. Want to change the settings on your DVR while on vacation, no worries the Pro app allows you to do just that. Say goodbye to your computer and hello to true Smartphone connectivity.

PC and MAC connectivity with free CMS Software:

If you haven't figured out that Tablets/Smartphones are the future this system is still accessible over the internet via PC® and MAC® computers. The included Control Management Software (CMS) for PCs® gives you the ability to monitor multiple locations on one computer screen. Purchase up to 100 different BJPRO series security kits and access all of them at once with the included CMS software.

- PC® and MAC® Compatible
- View multiple locations in one screen
- Log onto over 100 different DVR's
- Free DDNS Service

Professional Digital Video Recorder (DVR)

Night Owl Setup Wizard

Configuring your DVR for the first time does not need to be complicated. Since every user requires a unique configuration for their security system Night Owl has launched an easy to use quick Setup Wizard. The Setup Wizard will automatically launch upon the initial startup of your DVR and walk you through the crucial steps of setting up the DVR properly. The only thing worse than not having a security system is having a system not configured properly.

HDMI Connection to your TV or Monitor

The DVR easily connects to multiple TVs or Monitors with the convenience of four video outputs for instant viewing. The DVR is equipped with 1 RCA, 1 VGA and 1 HDMI video outputs giving way for coverage over a larger square footage as with small businesses. For your convenience, we have included a 6-foot HDMI cable.

Real Time Motion Activated Recording with Live Alerts & Emails

The enhanced motion detection settings ensure that false alarms are not triggered. An easy motion detection mask allows you to block out areas with constant movement, such as roads or trees. This feature also will send you a real time email alert with an image attachment or push notification to your Smartphone or Tablet when the cameras detect movement.⁽³⁾

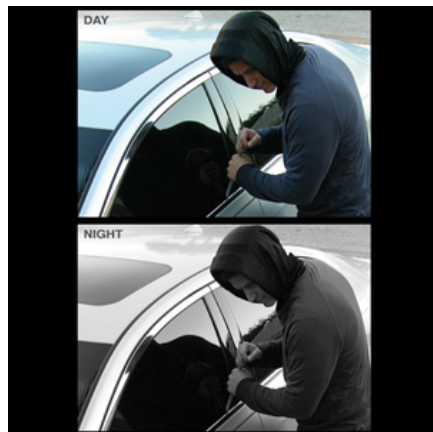

Large 1 TB Security HD and Easy to use Interface

This DVR comes equipped with a state of the art, easy to use icon based interface. All you need to do is point and click to access any of the features of the DVR. The interface is very user friendly and comes equipped with both a USB mouse and remote control. Utilizing H.264 compression this system records up to 1 year of video with its pre-installed 1TB security hard drive. (Expandable up to 2TB).⁽¹⁾ The hard drive was specifically designed for DVRs. It provides faster read/write times and reliable recording of your video security footage.

Hi-Resolution Cameras

600 TV Line Cameras with Facial Recognition

These sleek indoor/outdoor cameras display hi-resolution images day or night with an advanced 600 TVL sensor that offer up to 50ft of facial recognition. The 3-Axis bracket will also allow you to mount to any ceiling or wall at any angle. IN addition, the metal alloy housing and vandal-proof cabling system keep prowlers away.

50FT of Night Vision and Auto IR Cut Filter

The hi-resolution cameras are equipped for night vision up to 50FT away in complete darkness. With the Auto IR cut filter sensor these cameras produce a clear and crisp image day or night.

Bonus 2 Audio Enabled Cameras Included:

As a special bonus we have included 2 audio enabled cameras that will allow you to stream and record audio from 20ft away. Imagine sitting at dinner with your better half and using your Smartphone to see and hear your kids getting ready for bed. You can also record the audio as well for playback at a later date.

24/7 Support open 365 Days a Year

In addition, all Night Owl security products come with 24/7, 365 days a year full technical phone support in English and Spanish. After purchasing your system give us a call to help you setup the remote access portion of your DVR. If needed, we can even remotely access your DVR and help set everything up while you sit back and watch. Rest assured you can reach us any time and day. Please visit our website at www.NightOwlSP.com for free How-To-Videos, software upgrades, manuals and contact information.

The included free Night Owl DDNS service will also allow you to access the system remotely without the need for a static IP. Rest assured you can reach us any time and day. Please visit our website at www.NightOwlISP.com for free How-To-Videos, software upgrades, manuals and contact information.⁽¹¹⁾
